

Inova Medical House Calls

Let Inova's primary care come to you

Do you or a loved one have difficulty leaving the home? The Inova Medical House Calls program brings primary care and chronic care management services to patients who are 65 years and older and homebound. Our goal is to provide quality care while supporting older adults at home.

Once a patient is enrolled in the program, our skilled team of physicians, nurse practitioners, nurses and social workers will provide comprehensive care and coordinate patients' health and wellness programs from the comfort of the home. We can help to manage acute and chronic illnesses.

Some examples include:

- Chronic illnesses such as heart failure, COPD and diabetes
- Multiple medications
- Falling or risk of falling
- Loss or change in functional ability

Additionally, our team can assist with the stresses of caregiving that can affect family members.

Inova's senior services

Inova is committed to providing the senior population of Northern Virginia with quality medical care and supportive programs that ensure the comfort, wellness, dignity and independence of older individuals.

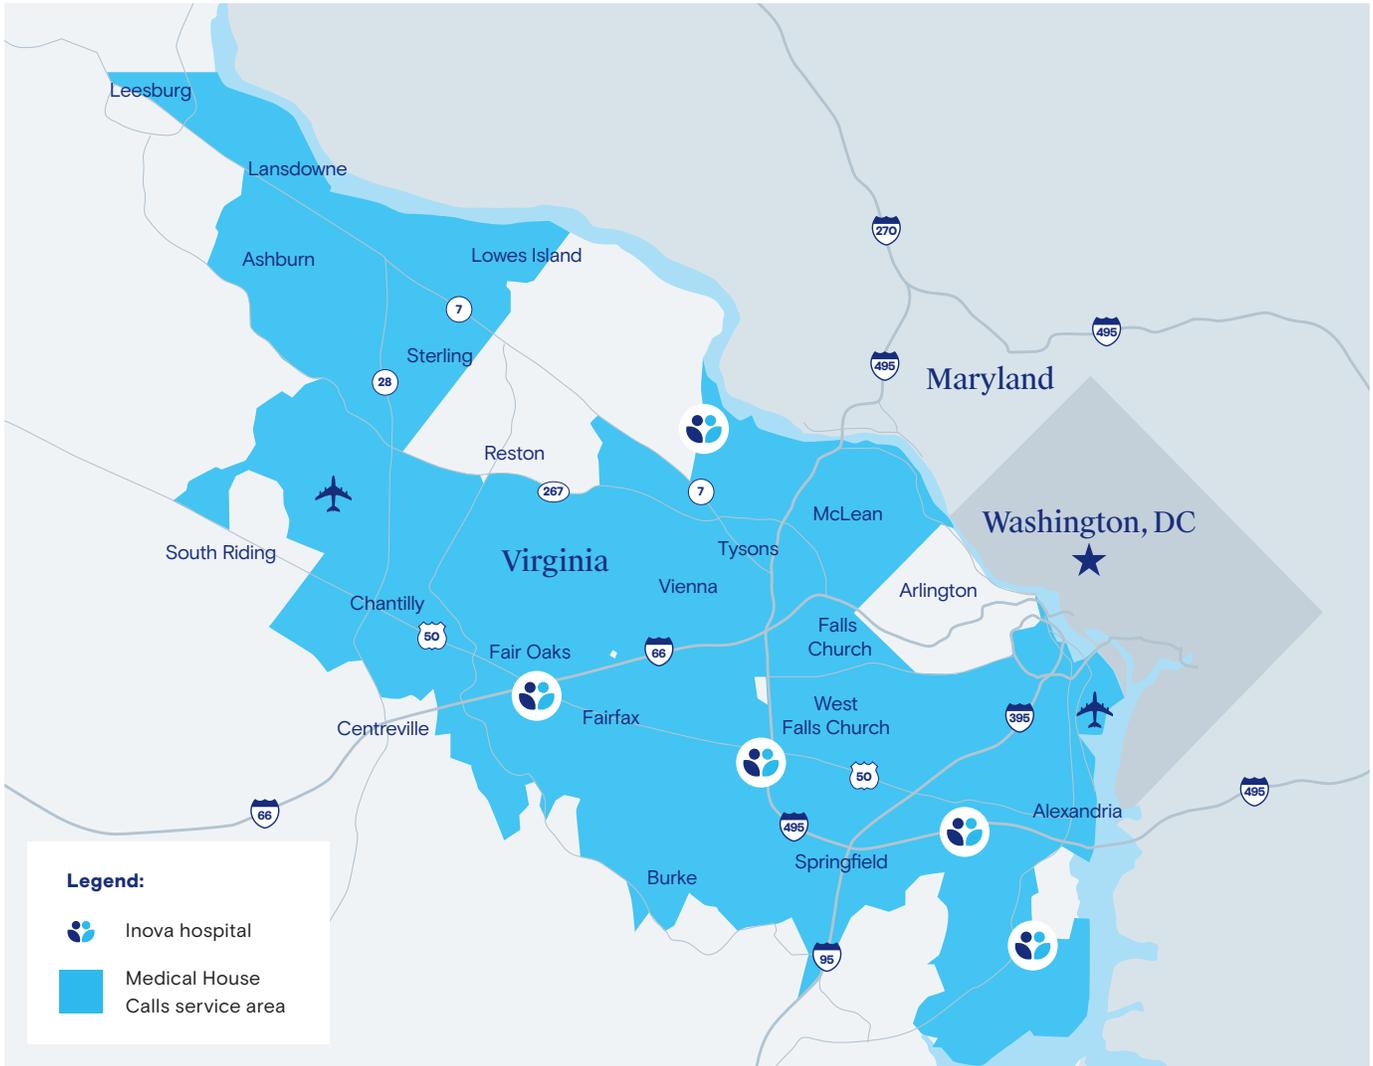

Services provided in the home

- Primary care visits including wellness, routine follow-up and urgent sick visits.
- Chronic care management
- Orders and referrals including prescription refills, durable medical equipment, laboratory, and other diagnostic testing and specialty referrals.
